

Welcome to the *Galactic Pistol Alliance*!

Greetings and thanks for your interest in the Galactic Pistol Alliance! (GPA)

So, what exactly is the Galactic Pistol Alliance? Briefly, it is an action shooting sport based *very* roughly on defensive shooting. It is a game, and it is designed to be safe, challenging, fun, interesting and easily understood.

GPA has been in development and evolving for a while. Our home base is the Bridgeville Rifle and Pistol Club in beautiful Bridgeville, Delaware, where we shoot a LOT! In this case "a LOT" means 76 matches each year. In the last year we have run about 60 GPA matches and the feedback has been *overwhelmingly* positive. Here are a *few* features that make GPA such a blast.

- Every stage may have up to 24 required shots. More shooting equals more fun!
- Ammo management is *entirely* the responsibility of the shooter.
- You can load your mags to capacity and carry as many as you want.
- Every stage requires one *mandatory* reload after the first shot and before the last. You decide when and where to do it.
- You dropped a magazine with rounds in it?? **It's legal!** No PE!
- Targets *may* be required to be shot while you are moving.
- There is no tactical priority for targets in the open.
- Any stage can have an *unlimited* number of steel targets as well as *unlimited* non-threats!
- With few exceptions, whatever equipment you are using in another pistol sport is probably legal in GPA.
- Scoring is Raw Time + PE's + Target Points Down (1/2 second scoring)
- The rulebook is clear, concise, unambiguous, and only 12 pages long!

These are just a few highlights. If it sounds interesting, download our rule book, and see what it's all about. If you have questions, please contact us at GalacticPistol@outlook.com. We look forward to hearing from you!
